

**Additional collations to BiMes 24** – In my recent review of David B. Weisberg, *The Late Babylonian Texts of the Oriental Institute Collection*, Bibliotheca Mesopotamica 24 (Malibu : 1991) published in *AfO* XL/XLI (1993/1994) pp. 111-116, I indicated that I had collated most of the tablets published in that volume. The results of several of those collations were noted in the review. Here are several more not mentioned there. I would again like to thank Professor John A. Brinkman for permission to examine these tablets.
